

CZAR AND CONSORT ARE CONGRATULATED.

Russian Ministers of State and
Other Notables Felicitate
Their Sovereigns

Hall in Which the Reception Took
Place Decorated in Gor-
geous Style.

TO RECEIVE CHURCH PRELATES.

Dignitaries of the Protestants, Catholics,
Mohammedans and Llamas of East-
ern Siberia, to Wait on
the Emperor.

Moscow, May 27.—Emperor Nicholas II. and his consort to-day received the congratulations of foreign representatives, the Christian clergy, the Ministers of State, the Council of the Empire, the Senate, the representatives of the nobility, the Secretaries of State, the representatives of the Duchy of Finland, committees of the House and Chamber of Commerce, and the municipal and provincial delegates.

The reception took place in the Hall of St. Andrew in the Palace of the Kromlin, which is also known as the Throne Room. This room, which had been renovated for the coronation festival, presented a brilliant appearance. Its walls were hung with light blue silk, while numerous gold plates, offerings from various cities in Russia to previous Emperors, adorned them. The hall contains the Emperor's throne at one end, and is about 150 feet long by half that width.

The various halls and rooms of the palace were thronged this morning with those who had come to render homage to the newly-crowned czar, as well as representatives of foreign missions who were charged with the congratulations of their sovereigns. Masters of ceremonies with their aids were busily employed in stationing and instructing the different delegations, and hurrying hither and thither to greet new arrivals.

Large Crowd in the Hall.

The Hall of St. Andrew was crowded with deputations, arranged in regular order, and in a few moments the gilded doors swung open and the Emperor and Empress appeared with their suite and took their positions, standing in front of the throne.

The Emperor was dressed in a general's uniform, the Empress in Russian gala costume. At their right were the regalia on a table, and the Imperial standard, guarded by two grenadiers. Their suite stood at their left, flanked by a company of grenadiers of the palace on guard. Immediately the long line of deputies, two by two, came filing up, attended by masters of ceremonies, who introduced each deputation.

To Receive Church Representatives.

On one of the other days set apart for receiving congratulations, the czar will receive deputations from the Orthodox Church and the various sects in Russia, in the following order:

The Roman Catholic clergy in Russia, represented by the Archbishop of the Diocese of Archangel and Wladimir, then the Armenian Catholics, the Armenian Bishop of Astrakhan and the Armenian Gregorian body; next the Superintendent-General and Vice Presidents of the Protestant Consistories of St. Petersburg and Moscow, the Mohammedan Muftis of Orenburg and Taurida, the Sheikh-ul-Islam of Trans-Caucasia, representatives of the Llamas of Eastern Siberia, and lastly the Llama of the Kalmucks and the Haham of Eupatoria (a small town in the Crimea), with two assistants, representing the few thousand Karaites.

BARON DE BODISCO DEAD.

He Was Former Russian Ambassador at Washington, and Left an American Widow.

Waterbury Conn., May 27.—Baron de Bodisco, former Russian Ambassador to the United States, who had relatives in this city, died yesterday in Moscow of a tumor of the throat, which first made its appearance about a year and a half ago. An operation was performed by an eminent specialist in Berlin a year ago.

The Baron is survived by a widow, Charlotte Elizabeth Baron de Bodisco, and a daughter Olga, whose portrait was published in to-day's Journal, and three sons, Alexander, Constantine and Nicholas. The youngest son is a member of the Page's Court, and the first two are officers of the Cavalry Guard, the favorite regiment of the Czarina.

Baron de Bodisco was married in 1867. His age was fifty-one years. He was in this country last fall and visited Mrs. G. H. Cowell, his sister-in-law, who is the wife of Judge Cowell, of this city. This visit was made at the summer home of the Cowells at Walnut Beach, on the Connecticut shore.

MRS. DYER ATTEMPTS SUICIDE.

Her Second Effort to Kill Herself Results Unsuccessfully.

Longon, May 27.—Mrs. Dyer made a second attempt at suicide in Newgate Jail yesterday.

While in bed, seemingly asleep, she twisted a handkerchief around her throat and almost succeeded in strangling herself.

She will be hanged on June 10.

Bismarck's First Grandson.

Berlin, May 27.—A son was born to Count William Bismarck, youngest son of Prince Bismarck and his wife yesterday. Prince Bismarck has four granddaughters, one the daughter of Count Herbert Bismarck, and the three daughters of Count William Bismarck, but the child born yesterday is his first-grandson.

Rhode Island Legislature.

Newport, R. I., May 27.—The new Legislature met this morning. The first business was the reading of the Governor's message. This was followed by the two branches of the Legislature organizing into grand committee. In grand committee the following elections were unanimously made: A. C. Lander, State auditor; Rev. Charles J. Whitcomb, Woonsocket, and George T. Baker, Barrington, members of the State Board of Education.

Decoration Day at Niagara Falls.

The Lehigh Valley Railroad has arranged an excursion to Niagara Falls and return for Decoration Day. The tickets are good going on May 29, and to return within three days. Special arrangements have been made to accommodate the party. The cost of the round trip will be 85 cents. Full particulars will be run on all trains. For full particulars and Pullman accommodation, apply General Eastern Passenger Office, No. 10 Broadway, New York City.

FENIANS AT WORK IN GREAT BRITAIN.

Scotland Yard Officials Fear
Desperate Deeds May
Be Attempted.

Special Detectives Keep Careful
Guard Over Members of the
English Cabinet.

NEW HEAD CENTRES BEING FORMED.

Organizers Work in Ireland and the English Provinces—Funds Collected in the United States.

London, May 27.—Scotland Yard officials claim an effort is being made in London to revive militant Fenianism. An infernal machine was left with an employee of Parliament House last Wednesday, but it was discovered before any damage was done.

Chief Inspector Melville, of Scotland Yard, said this morning that the police have feared for three months that the country was on the brink of a new outbreak of revolutionary crime.

All Cabinet Ministers are closely guarded by special detectives. This precaution was not considered necessary for the past three years, but now the pick of the police force is being used.

Melville says that a man named Lyman collected funds in America and came here and organized the present movement. There are nine men in the new "head centre."

Offered to Aid Russia.

Melville says overtures were made to the Russian Government with a view to assisting the designs of Russia on the frontiers of India.

The Russian Minister to England promptly notified English officials. This started inquiries and the head centres were soon under surveillance.

They met last week in a room in the First Avenue Hotel. Resolutions were passed pledging those present to a continued warfare on England and the English until Ireland was proclaimed a republic.

Annexation for Dynamiters.

In the meantime direct efforts to secure annexation for the dynamiters in English prisons will be made. Visiting Irish-Americans present stated that ample funds were on the way from New York.

Organizers who were sent into Ireland and the English provinces report that centres have been formed in Liverpool, Birmingham, Sheffield, Manchester, Cork, Dublin and most of the towns in Ireland.

The membership is said to be increasing by leaps and bounds.

Melville asserts that there is no fear as long as members act in concert. The authorities dread individual efforts, according to the anarchist model.

Melville said that though the funds came from America the leaders are not Americans.

MARLBOROUGH AT HOME.

Duke and Duchess Entertaining Many Distinguished Persons at Blenheim Castle.

London, May 27.—The Duke and Duchess of Marlborough, who have been visiting the Earl and Countess of Warwick at Warwick Castle, returned to Blenheim Castle today.

A distinguished company was at the castle to meet the Duke and Duchess, including the Austro-Hungarian Ambassador, the Countess of Deym, the Earl and Countess of Westmoreland, Lady Randolph Churchill, Lord and Lady Morreys and many others.

It was noted at the Foreign Office reception, on the Queen's birthday, that the Duchess of York wore jewels as magnificent as those of the Princess of Wales, though the Duchess of Marlborough and the Duchess of Portland outshone both.

MISS WANAMAKER TO WED.

Will Become the Wife of Count Felix Harnoncourt.

Budapest, May 27.—It is understood in society circles here that the engagement will shortly be announced of Miss Wanamaker, daughter of John Wanamaker, of Philadelphia, Postmaster-General in the Cabinet of President Harrison, and Count Felix Harnoncourt, heir of the wealthy Baron Sinala, owner of Transcaspian.

BUST OF EX-CHIEF BYRNES.

It Is Sculptor Macdonald's Work, and Bronze Casts Will Be Made.

Wilson Macdonald, sculptor, has completed a life-size bust of ex-Chief of Police Byrnes. It is at present in the studio of Fred Moulton, at No. 145 West Fifty-fifth street. Mr. Moulton will make a pedestal for it, when two bronze casts will be made.

One of these is to adorn Mr. Byrnes's new office as vice-president of the Casualty Insurance Company, and the Park Commissioner Byrnes will be asked to find a place for the other cast.

All of Mr. Byrnes's friends who have seen the bust at Mr. Moulton's studio declare it is an excellent likeness.

Mr. Byrnes sat for the bust during his incumbency of the office of Chief of Police. A fund of \$2,100 was raised by bankers and business men, who proposed to show their appreciation of the establishment of a "dead line" to keep the downtown portion of the city free from burglaries.

Among the subscribers were George J. Gould, Moore & Schley and Charles E. Simmons. Many of Mr. Byrnes's friends on the police force added to the sum by liberal contributions.

Five Lost on a Norwegian Bark.

Halifax, N. S., May 27.—The Norwegian bark Brodrene, from Avonmouth for Miramichi, was wrecked half a mile from the Gulf of St. Lawrence, last night. A thick mist and heavy sea prevailed. Captain H. Nielsen, First Mate H. M. Swenson, Second Mate Theodore Parson and Seamen Harold Nelson and Emil Soterstrom were lost. Five others were saved.

Bayard in Favor of Arbitration.

London, May 27.—The annual session of the Co-operative Congress, which is being held at Woolwich, has passed a resolution in favor of the formation of a permanent tribunal to settle disputes arising between England and the United States. A copy of the resolution was sent to United States Ambassador Bayard, who acknowledged it in a letter expressing his hearty concurrence in the suggestion.

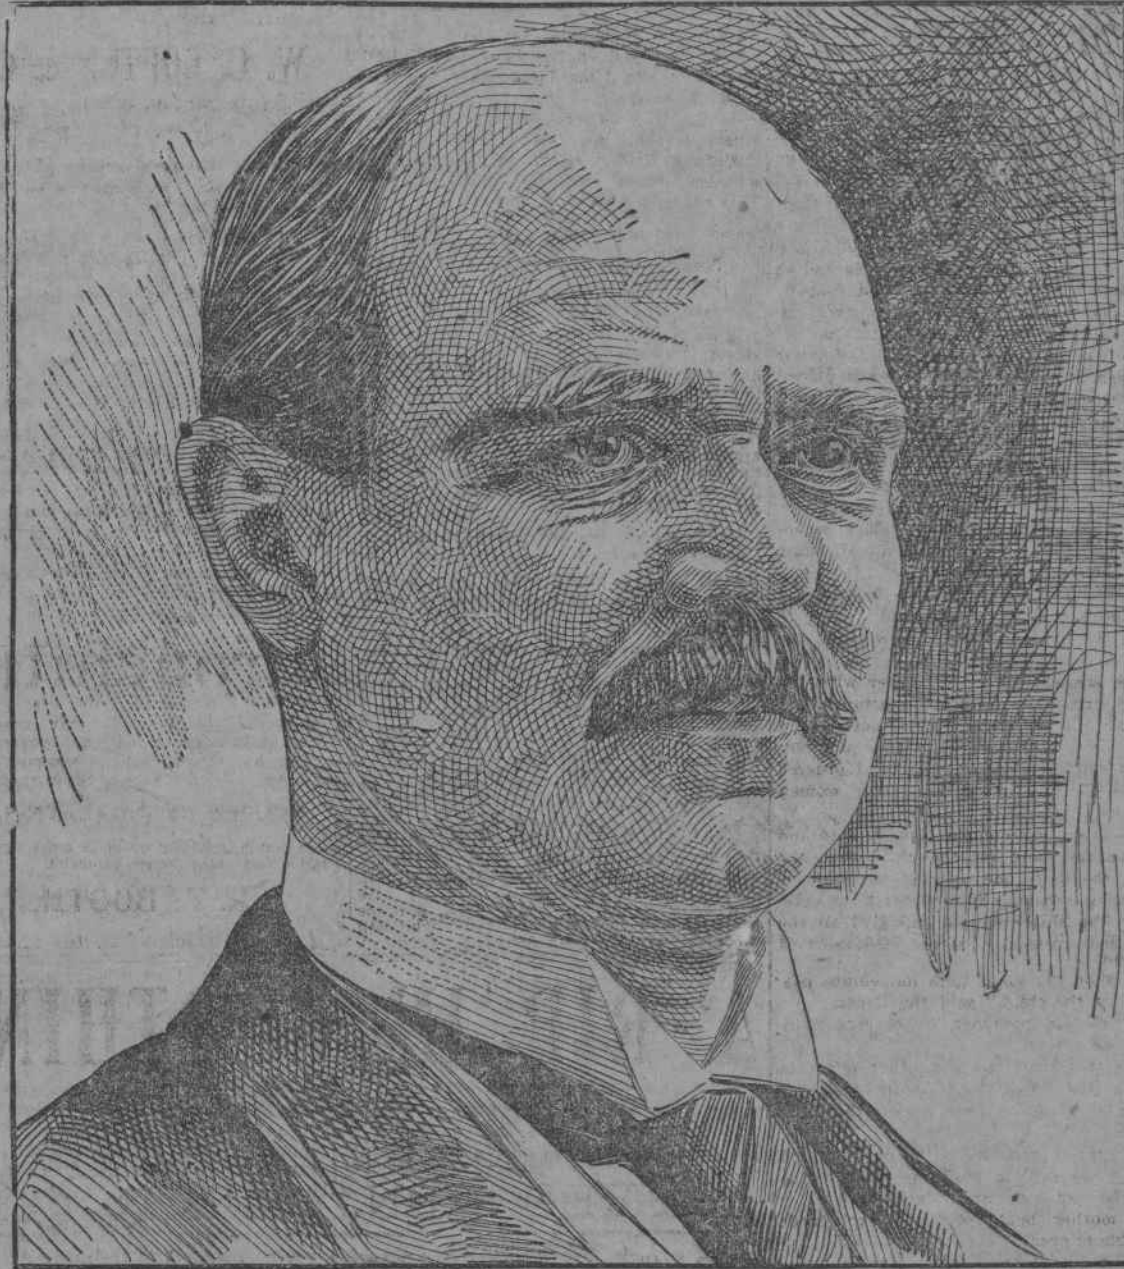

Henry C. Cranston Dead.

Providence, May 27.—Henry C. Cranston, one of the most prominent and successful of Providence business men, died suddenly this morning. He was sixty-three years old and was a member of one of the oldest families in Rhode Island, two of his ancestors having been Governors of the State. He was identified with many commercial enterprises.

NEAR THE WHITE HOUSE!

Personal Friends of the President Indorse Paine's Celery Compound.

Following the Testimonials of Judge Powers and Congressman Grout Come Hearty Letters from Congressman Meredith, of Va., Asst. U. S. Attorney John G. Capers, Maj.-Gen. Birney, Congressman Wilber, of N. Y., Congressman Bell, Lieut. McAllister, Congressman Neill and Many More.

The proprietors of Paine's celery compound have never exaggerated either the virtue of this wonderful remedy nor the astonishing character of the indorsements it has received.

This greatest of all blood purifiers and restorers of nervous energy, this remedy which is to-day in greater demand than all the so-called Spring remedies put together.

This Paine's celery compound, which was first discovered and prescribed by America's most eminent physician, that giant among medical scientists of this progressive age, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth College.

This remedy, which has been a blessing to thousands upon thousands of homes in every State and city of the country, which has been energetically indorsed by the ablest physicians, which has received thousands of heartfelt testimonials from women and men in every station in life, and has been publicly recommended without solicitation by persons of such high character that they are honored by the whole nation—this remedy that makes people well, has received so many letters in its praise within the last two or three months, coming in every mail from every section of the country—that it would be impossible to print them all in the daily issue of any one paper.

Mr. Hearst's great paper, the Journal, in New York; the Globe and the Journal, in Boston; Mr. Kohlman's powerful Times Herald, in Chicago, have each of them, within a month, devoted from one to three pages at a time to the most remarkable canvass ever made of the druggists in the great cities. And their best reporters, unprejudiced one way or another, have found that the druggists are meeting not only a larger demand than ever before for this one remedy, but that this demand—because Paine's celery compound cures where everything else fails—is so far greater to-day than that of any other remedy that it has no competitor.

Among the thousands of testimonials that have been received by the proprietors of Paine's celery compound this Spring, none have been more noteworthy than those that come from the national capital. The enthusiastic letters of Judge Powers and of Congressman Grout were recently published in this paper. Above is a good likeness of one of the ablest members on the Democratic side of the house, a leader of acknowledged ability, a personal friend of the President, a man of great weight—Congressman Ellisha E. Meredith, of Virginia. A letter from him, dated Feb. 4, from the House of Representatives, says:

"After a fair trial I have no hesitation in saying that I believe Paine's celery compound all that is claimed for it, and it gives me pleasure to recommend it."

A letter from Congressman Robert Nell, of Arkansas, contains the following:

"My home is at Batesville, Ark. During the last Spring and Summer my eldest daughter, then 17 years of age, was in very poor health, suffering from general debility, nervous prostration, and frequent slight fevers. She had the best medical attention, but apparently with little benefit. In the latter part of September last, while still feeble, she began the use of Paine's celery compound, and improved in health continuously. In three months she had fully recovered, and is still in perfect health. I am bound to think the remedy is an excellent one, and do not hesitate to recommend it to the suffering."

Lieut. C. A. McAllister, writing from Hotel Oxford, March 28, said:

"For several years past I have been a sufferer from severe attacks of dyspepsia, caused by too close attention to business; on the advice of a physician I took several bottles of Paine's celery compound, and have been greatly benefited thereby. Since the first of last September I have gained 25 pounds, and am now feeling in first-rate health."

"1st Assistant Engineer, U. S. R. C. S." Hon. John C. Bell, member of Congress from Colorado, in a letter to Wells & Richardson Co., about the same time, told him he had used three bottles of Paine's celery compound for dyspepsia and rheumatism, with satisfactory results.

Maj.-Gen. Birney, who is now, at the age of 75, practicing law and doing departmental work in Washington, the unflinching commander at the battle of Fredericksburg of the famous 38th New York Regiment, in a letter to Wells & Richardson Co., says:

"My wife has been taking the Paine's celery compound for some time past, and is so much pleased with it that she wishes me to express to you her high opinion of its merits. She thinks it the best she has ever taken."

Many other letters from prominent people who are not so well known are included in this year's files of testimonials from Washington.

Every city and every town in the country is equally well represented in this wonderful popular indorsement of the remedy that purifies the blood, rebuilds the shattered nervous system, restores strength, regulates the kidneys, liver and bowels, cures disease, makes people well.

In these latter days of Spring, in the last of the three great months, the close of nature's yearly revival season, when the recovery from sickness is the most rapid and lasting, Paine's celery compound will make vigorous nerves and good blood.

During these latter Spring days there is a clearing of the air; it is the most favorable time of the year to cure nervousness, neuritis, sleeplessness, headaches and low spirits by the use of Paine's celery compound.

Paine's celery compound points to a wonderful record already achieved. The most wide-awake, intelligent part of every community in this country are among its most enthusiastic vouchers and indorsers.

WE ARE CLOSED DECORATION DAY.
